EDUCATION

BSc. in Information and Communication Engineering

University of Rajshahi

January, 2018-June, 2023

LANGUAGES

English

Bangla

EXPERIENCE

Web Developer

ReliSource Technologies LTD.

August 2023 - Present

-Over 2 years of experience delivering industry-grade web projects. Contributed to the design and development of scalable web applications, and as part of the eLearning team, created numerous SCORM-compliant packages.

PROJECTS

Weeker

- Engineered a high-performance MERN stack web application to manage weekly activities with a focus on minimalist interface.
- Implemented a robust backend architecture using Node.js and Express, utilizing Mongoose for efficient schema modeling and data persistence in MongoDB.
- Optimized the front-end state management to ensure seamless, real-time updates to schedule without page reloads, enhancing efficiency.
- Designed a clean, responsive, interface that reducing unnecessary complexity and user cognitive load.

Interactive Web Application for Maintaining Activities of a Programming Club

- Engineered the Frontend Architecture of an interactive web app for programming club, ICE, University of Rajshahi using React.js, ensuring a highly responsive and performant user experience for 50+ active members.
- Translated complex UI requirements into reusable React components, maintaining a consistent design system across the entire application.
- Integrated RESTful APIs using Axios to fetch and display real-time data from the backend, focusing on efficient state management and error handling.
- Collaborated with the Backend Developer to define API contracts, ensuring seamless data flow between the MERN stack backend and the user-facing frontend.

Dimdhora

- Engineered a fully functional interactive game using Unity and C#, focusing on responsive gameplay mechanics and optimized frame rates for smooth user experience.
- Architected complex game logic and state management systems in C#, including player physics, scoring algorithms, and dynamic obstacle spawning.
- Implemented seamless asset integration and UI/UX components, utilizing Unity's animation system to enhance visual feedback and player engagement.
- Optimized resource management and code efficiency to ensure stable performance across different hardware configurations.

ACHIEVEMENTS

- **SELISE Coding Challenge 2023** - Position 102nd
- **Samsung SRBD Code Contest 2022** - Position 121st (Round 2)
- **ICE Logic Battle Programming Contest, 2019** - Team Position 1st
- **ICE Intra Department Programming Contest, 2019** - Team Position 5th
- **VU CSE Tech Fest Programming Contest, 2019** - Team Position 25th
- **Technocracy 2019 by RUET, IUPC** - Team Position 62nd

ACTIVITIES

Assistant General Secretary

ICE Programming Club

University of Rajshahi

-Arranged about 10+ online programming contests, 2 onsite programming contests, took classes and trained juniors.
